

Coal India Limited — Annual Report 2023-24 (sample excerpt)

Directors' Report

Your Company achieved coal production of 773.81 million tonnes in 2023-24 against the annual target of 780 million tonnes, the highest ever. MCL and SECL together contributed more than half of the total. ECL recorded the highest growth among subsidiaries at over 28 per cent, driven by the ramp-up of the Rajmahal expansion. NEC's production remained constrained by pending forest clearances.

Production target and achievement, 2023-24 (figures in Million Tonnes)

Subsidiary	Target 2023-24	Actual 2023-24	Achievement (%)
ECL	48.00	47.60	99.17
BCCL	40.00	40.50	101.25
CCL	88.00	86.10	97.84
NCL	136.00	136.20	100.15
WCL	70.00	69.10	98.71
SECL	190.00	187.00	98.42
MCL	207.50	207.10	99.81
NEC	0.50	0.20	40.00
CIL	780.00	773.80	99.21

Safety

The Company continued its focus on zero-harm mining. Safety audits by multidisciplinary teams, proximity warning devices on heavy earth-moving machinery, and real-time gas monitoring in underground mines were extended. Fatality rate per million tonnes of coal produced declined compared with the previous year.

Mine closure

Progressive and final mine closure plans are implemented under the guidelines of the Ministry of Coal. Reclaimed land is being developed as eco-parks, water bodies and plantations; 1,610 hectares were brought under biological reclamation during the year.
